A WINDOW IN JANE E. LEONARD HALL

Courses of Study for Pennsylvania State Normal Schools.

[As revised and adopted at a meeting of Normal School Principals held at Harrisburg, November 8, 1900.]

Regular Course.

(Studies marked with (*) are to be reviewed in Senior Year.)

JUNIOR YEAR.

Pedagogics:—School Management.

Language:—English Grammar,* Reading and Orthography, Latin to Cæsar.

Mathematics:—Arithmetic,* Algebra.

Natural Science:—Physiology, Botany.

Historical Science:—Geography,* U. S. History,* Civil Government of the United States and Pennsylvania.

Arts:—Penmanship (an approved system with a fair handwriting), Drawing (daily lessons for at least 20 weeks), Vocal Music (elementary principles and daily exercises for at least 10 weeks), Bookkeeping (single entry, with a knowledge of common business papers).

Physical Culture.

MIDDLE YEAR.

Pedagogics:—Psychology, Methods of Teaching.

Language:—Rhetoric and Composition, with elocutionary exercises; three books of Cæsar.

Mathematics:—Plane Geometry.

Natural Science:—Elements of Chemistry, Elements of Zoology, Elements of Geology.

Historical Science:—General History.

Arts:—Manual Training.

Physical Culture.

SENIOR YEAR.

Pedagogics:—History of Education, Methods of Teaching, Practice of Teaching in Model School (at least 20 weeks, forty-five minutes daily), Thesis.

Language:—Literature and classics, three Orations of Cicero, three Books of Virgil, Review of English Grammar.

Mathematics:—Solid Geometry, Plane Trigonometry and Surveying, Review of Arithmetic.

Natural Science:—Physics, Review of Geography.

Historical Science:—Review of U. S. History.

Physical Culture.

SUBSTITUTIONS.

The following substitutions may be made:

Middle Year:—Chemistry and Astronomy for Latin; Greek, German or French, for Latin or for Chemistry.

Senior Year:—English History, Ethics and Logic for Latin; Greek, German or French for Solid Geometry, Trigonometry and Surveying, or for Latin.

Supplementary Course.

[In addition to the Regular Course.]

LEADING TO THE DEGREE OF BACHELOR OF PEDAGOGICS.

Philosophy of Education, Advanced Psychology.

Discussion of Educational Questions; School Supervision, including School Law; Devices for Teaching; Educational Theories, etc.

School Apparatus and Appliances; Description, Use, Preparation.

LEADING TO THE DEGREE OF MASTER OF PEDAGOGICS.

Two years' teaching after graduation in the Regular Course.

Professional Reading, with abstracts: History of Education in the United States (Boone), European Schools (Klemm), Systems of Education (Parsons).

Sanitary Science, School Architecture, etc.

Thesis.

A full equivalent will be accepted for any of the text books named above. The courses in reading and classics for all the courses shall be determined by the Board of Principals at their annual meeting, and shall be the same for all normal schools.

Rules for Final Examinations, Admission to the Middle and Senior Classes, Etc.

[For all the Normal Schools of Pennsylvania.]

1. Admission to the Senior and Middle classes shall be determined by the State Board of Examiners at the annual examination by the Board.

2. In order to be admitted to the Middle class at any State normal school, students must be examined by the State Board in all the Junior studies (except English, Grammar, Arithmetic, Geography, and United States History), and this examination shall be final. Persons who desire to be admitted to the Middle Class without having previously attended a State normal school, must pass an examination by the Faculty in all the studies of the Junior year and by the State Board of Examiners in the academic studies of the Junior year (except the Senior review studies), and Plane Geometry or the first Book of Cæsar, and must complete School Management in the Middle year.

3. In order to be admitted to the Senior Class, students must be examined by the State Board in all the Middle year studies (except Methods), and this examination shall be final. Persons who desire to be admitted to the Senior Class without having previously attended a State normal school, must pass an examination by the Faculty and State Board in the academic studies of the entire course, except the review studies of the Senior year; and must devote their time during the Senior year to the professional studies of the course, and the review studies.

4. If the Faculty of any State normal school, or the State Board of Examiners decide that a person is not prepared to pass an examination by the State Board, he shall not be admitted to the same examination at any other State normal school during the same school year.

5. If a person who has completed the examinations required for admission to the Middle or Senior class at any State normal school, desires to enter another normal school, the Principal of the school at which the examination was held shall send the proper certificate to the Principal of the school which the person desires to attend. Except for the reason here stated, no certificate setting forth the passing of the Junior or Middle year studies shall be issued.

6. Candidates for graduation shall be examined by the State Board in all the branches of the Senior year, including English Grammar, Arithmetic, Geography, and United States History. They shall have the opportunity of being examined in any higher branches, including vocal and instrumental music and double-entry bookkeeping; and all studies completed by them shall be named in their certificates.

7. Persons who have been graduated may be examined at any State examination in any higher branches, and the Secretary of the Board of Examiners shall certify on the back of their diplomas to the passing of the branches completed at said examination.

8. A certificate setting forth the proficiency of all applicants in all the studies in which they desire to be examined by the State Board of Examiners shall be prepared and signed by the Faculty and presented to the Board. The certificate for the studies of the Junior year shall also include the standing of applicants in the review studies of the Senior year.

9. Graduates of State normal schools in the regular course and graduates of accredited colleges may become candidates for the degrees of Bachelor of Pedagogics and Master of Pedagogics. To obtain these degrees, candidates must be examined by the Faculty and State Board upon the studies of the Supplementary Course. Three years' successful teaching in the public schools of the State since graduation (or two years in the case of candidates who taught in the Model School) will be required of all candidates for the degree of Master of Pedagogics, in addition to the branches of study indicated above.

10. Attendance at a State normal school during the entire Senior year will be required of all candidates for graduation; but candidates for the pedagogical degrees may prepare the required work *in absentia*.

Certificate and Diploma.

The State Normal Certificate is issued to those who are graduated. It entitles them to teach in the public schools of the State for two years without further examination. *The State Normal Diploma* is issued to graduates who have taught in the common schools of the State for two full annual school terms of not less than seven months each after graduation, and who present certificates of successful teaching from each of the school boards, countersigned by the county, city or borough superintendent. It is furnished without charge, unless the name is to be engrossed, in which case one dollar is charged.

Examination of Practical Teachers.

The Normal School law makes it the duty of the State Board of Examiners to grant Diplomas or State Certificates to actual teachers of common schools, without their having attended the Normal Schools as students, upon the following conditions :

1. The applicant must be twenty-one years of age, of good moral character, and must have taught successfully in the common schools of this State during three consecutive annual terms immediately preceding the examination. The proof of good moral character, and satisfactory teaching for the required time, must be a certificate from the proper Board or Boards of Directors, signed by the President and Secretary and countersigned by the proper Superintendent or Superintendents.

2. The examination may be in either the Regular or the Supplementary Course, as the applicant may elect, according to the list of Studies as printed in the circulars of the State Normal Schools and approved by the State Superintendent, or in such other studies as may, by the Board of Examiners, be deemed equivalent.

3. Each applicant is required to prepare and present to the State Board of Examiners an original thesis of not less than six folio pages of manuscript, on some professional subject, which thesis is to be retained at the school where the examination takes place.

4. The examination and certificate are without expense to the applicant, and the certificate is full evidence of qualification to teach the branches therein named, in any part of the State without further examination.

5. Practical teachers attending examinations at the State Normal Schools for the purpose of procuring State Certificates, are examined separately from the regular students, and both the State Board of Examiners and the faculty of the School at which the examination is held, take part in the examination, all being required to sign the certificate.

Courses of Study as Arranged for this Institution.

Regular Course.

[Studies marked with a (*) are to be reviewed in Senior Year.]

PREPARATORY STUDIES.

FALL TERM.	WINTER TERM.	SPRING TERM.
Spelling.	Penmanship.	*Physical Geography.
E Reading.	*Geography.	*History.
Language.	Drawing.	Physiology.
Arithmetic.	Algebra (To G. C. D.)	Algebra (To Quadratics.)
(G. C. D., L. C. M., Fractions, Longitude and Time, Practical Measurements.)		Arithmetic (Applications of Percentage, Discount, Square and Cube Root.)

JUNIOR YEAR.

FALL TERM.	WINTER TERM.	SPRING TERM.
Mental Arithmetic.	*Arithmetic (Advanced.)	Botany.
Algebra (Completed.)	Civil Government.	Bookkeeping.
E *Grammar.	D *Grammar.	C Composition.
Latin.	Latin.	Latin.
Drawing.	D Composition.	Vocal Music.
D Reading.	School Management.	Geometry (Elective.)
Physical Culture.	Physical Culture.	Physical Culture.

MIDDLE YEAR.

FALL TERM.	WINTER TERM.	SPRING TERM.
Geometry.	Geometry.	Psychology and Methods.
Psychology and Methods.	Psychology and Methods.	B Elocution.
B Composition.	Rhetoric.	Zoology.
Geology.	General History.	Cæsar or Chemistry
Chemistry.	Chemistry.	General History.
Cæsar or	Cæsar or	Elementary Science.
*Descriptive Astronomy.	Descriptive Astronomy.	Physical Culture.
Physical Culture.	Physical Culture.	Manual Training.

Greek, German or French may be substituted for Latin or for Chemistry.

SENIOR YEAR.

FALL TERM.	WINTER TERM.	SPRING TERM.
Methods.	Methods.	History of Education.
Teaching.	Teaching.	Teaching.
Physics.	Physics.	Grammar (Review).
U. S. History (Review).	Geography (Review).	Surveying.
Literature and Classics.	Literature and Classics.	Arithmetic (Review).
Cicero (3 orations) or	Virgil or	Virgil (Complete 3 Books)
English History.	Ethics	or Logic.
Physical Culture.	Trigonometry.	Physical Culture.
Solid Geometry.	Physical Culture.	

Greek, German or French may be substituted for Solid Geometry, Trigonometry, Surveying, or for Latin.

Supplementary Course.

[See earlier page.]

Model School Course.

This comprises the following branches: Reading, Spelling, Writing, Arithmetic, Geography, History, Plant and Animal Lessons, Language, Form and Drawing, Vocal Music, Occupation of Kindergarten, Manual Training.

These are outlined in eight grades, corresponding in division to most approved city grading.

Musical Course.

MRS. R. J. SAWYER. MABEL S. MCCREIGHT.

We wish to call attention to the advantages gained by coming to Indiana for the study of the art of music.

After graduating here a pupil can finish in one or two years the course of any conservatory in the country, and thus save money.

The best methods of instruction are used, and great care is taken to cultivate the musical taste of each pupil.

There is another advantage in the opportunity the pupil has to study other subjects. A musical education alone does not give the culture demanded at the present day.

For terms, see "Expenses at Indiana." Fee for Diploma one dollar.

PIANO—FIRST YEAR

Selections from the following:—Mason Technic, Mathews' Graded Course I and II, Duvernoy op. 176, Kohler op. 190, Streabbog op. 36, Bertini op. 100, Czerny op. 849. Clementi Sonatinas op. 36, Beethoven, two sonatinas, Pieces by Lichner, Reinecke, Gurlitt, Hackh, Weiss, etc.

SECOND YEAR.

Selections from the following:—Mason, Mathews, Duvernoy op. 120, Berens op. 61, Le Couppey op. 20, Haberbier Daily

Studies, Loeschorn, op. 52, Handrock Sonatinas, Beethoven op. 49, 1, 2, Bach Twelve Little Preludes, easier Sonatas of Clementi, Haydn and Mozart, Pieces by Dussek, Schmoll, Stiehl, Merkel, Bohm, Lange, C. B. Klein, Low, etc.

THIRD YEAR.

Selections from the following:—Haberbier Daily Studies, Krause op. 4, op. 9, Heller op. 46, Bertini op. 29, Schytte op. 90, Hasert op. 50, Ten Studies of Cramer, Bach Two Voice Inventions, Sonatas of Hummel, Mozart, Haydn, Beethoven op. 14, No. 2, op. 2, No. 1. Pieces by Mendelssohn, Handel, Henselt, Godard, Grieg, Jensen, B. C. Klein, Moszkowski, Scharwenka, Chaminade, etc.

FOURTH YEAR.

Bertini op. 32, Hasert op. 50, Heller op. 16, Cramer continued. Clementi Gradus Ten Studies, Mozart Sonatas, Beethoven, op. 13, op. 10, No. 1, op. 10, No. 2. Pieces by Schubert, Mendelssohn, Rubenstein, Moszkowski, Chopin, Schumann, Rheinberger, Gade, Nicode, MacDowell, etc.

During the course one year in Harmony is required; also two years, weekly classes, in Musical History, Biography and Form. Both class and private lessons are given in Harmony.

VOCAL—FIRST YEAR.

1—Concone 50 Lecons; parts 1st and 2d. 2—Concone 25 Lecons. 3.—Technical Studies from Gonaldi and Marchesi. 4—Special attention given to the formation of tone and breathing.

SECOND YEAR.

1—Exercise from Panofka and Bordogni with a continuation of the major and minor scale. 2—Staccato and Legato Singing.

THIRD YEAR.

1—Exercise of Bardomen. 2.—Study of the oratorio. 3—German and Italian Songs. 4—Advanced Technical Studies given to produce various timbre of the voice.

The method is the old Italian method. That the tones may be taken with ease, there must be a thorough development and training of the organs which produce them.

DINING ROOM

Departments.

Professional Department.

D. J. Waller, Jr. — Edith Mansfield, A. B.
Jane E. Leonard, M. S. — Hope Stewart, M. E.
Mrs. Sherman L. Lowrey. — Malvina G. Riddle, M. E.
Ernest Work. — Jennie M. Ackerman.

Trades and professions are distinguished by skill and proficiency in definite lines of work. These are acquired only by thorough training. The lawyer, the physician and the minister each prepares for his work by a special course of training. The business of the country is carried on by those who by special training have been moulded to fit the places they fill. If teaching is to be a profession, and no one now doubts it, those who succeed in the calling must make special preparation for it. Normal Schools are established for the express purpose of giving this professional training.

The Academic Work is outlined with a view to the needs of the elementary teacher. Each branch is studied from the teacher's standpoint.

The pedagogical work includes:

I. Theory of Teaching.

II. History of Education.

III. Practice of Teaching. This means the teaching of classes in the Model School, a school composed of eight grades of such pupils as are ordinarily found in graded public schools. The students first observe the teaching of expert teachers for one term, after which they take charge of classes for whose progress they are held responsible. All the work is under the supervision of four efficient training teachers. To this feature of our work we give special prominence. In order to receive a diploma from this school, the student must do practice work of high character.

English Department.

Jane E. Leonard, M. S. — Mary Haines Crombie, A. B.
Charlotte Barton. — Eda Belle Nichol, A. B.

F LANGUAGE.

Exercises in naming the parts of speech; study of the simple sentence and its elements; many original sentences required; exercise in the writing of original compositions on subjects within the range of the student's personal observation and experience.

E GRAMMAR.

Study of the participle and the infinitive; compound and complex sentences; thorough study of the clause element; analysis of compound and complex sentences; constant practice in sentence-building.

Graduates of High Schools not accredited must take E Grammar or pass a satisfactory examination in the subject. Others may enter the E Grammar after passing a satisfactory examination in D.

Text-book, Welsh's Grammar.

D GRAMMAR.

Discussion of the elements of written and of spoken language; technical study of each part of speech with application of its syntax; parsing.

Text-book, Welsh's Grammar.

REVIEW OF GRAMMAR IN SENIOR YEAR.

This work is designed for advanced students, and is a study of English Grammar in the light of all the previous work both in English and other languages. Special attention is given to the sentence as a means of expressing thought, noting its structure and analysis. Suggestions as to methods of teaching language are given.

Text-book, Kimball's Structure of the English Sentence.

COMPOSITION.

D. Short studies in Literature to develop the taste, judgment and imagination, with much practice in writing.

C. Study of diction and phraseology, and their relation to style. Writing on narrative and descriptive subjects.

B. The paragraph and the whole composition. Exposition and argumentation.

RHETORIC.

In all the work, Theory is subordinated to Practice.

SENIOR YEAR.

A critical study and interpretation of at least four standard English writers are made during the second term of this year. An attempt is made to make the English a valuable mental discipline, by leading the student to discover for himself from models of good writing what constitutes clearness, purity, strength, or felicity of style. Through the year his own writing is kept up; thus he is given actual practice in subduing the detailed requisites of expression until they become ready servants of his own thought.

During the last term, the class studies biographies of representative authors who have contributed to the historical development of our language, with the best criticism upon these authors, and the best passages from their works.

Mathematical Department.

WALTER MITCHELL, PH. D. M. C. GORDON, M. S.
MRS. S. L. LOWREY. DORA H. MOODY, A. B.

ARITHMETIC.

1st Term. Practical Problems in G. C. D. and L. C. M.; Common and Decimal Fractions; Denominate Numbers and Measurements; Analysis; Simple Interest; Discount; Longitude and Time.

2nd Term. Percentage and Application; Square and Cube Root.

3rd Term. Mental Arithmetic.

4th Term. Thorough drill in all practical subjects.

Senior Year. Review of the subject.

ALGEBRA.

In Algebra thoroughness is demanded at each step. Students are required to discuss topics, to state principles and definitions in good language, and to demonstrate the most important propositions. The entire course aims not only at training in methods of operation but also at the development of the reasoning powers.

C Grade—Subject completed as far as the Greatest Common Divisor.

B Grade—To Theory of Indices.

A Grade—Elementary Algebra completed.

Graduates of High Schools may enter the B Grade Algebra without examination. All others desiring to enter this grade should come prepared to be examined on the C Grade work, especially on the subject of factoring.

GEOMETRY.

The work required in the Regular Course covers the ground outlined in Wentworth's Plane Geometry.

A substantial part of the class work consists in demonstrating original exercises. Special attention is given to accuracy of statement in demonstrations. The aim is to develop clear and rigorous reasoning.

TRIGONOMETRY AND SURVEYING.

The modern methods of treating these subjects are used. The latter part of the term is devoted almost entirely to field work and the use of surveyor's instruments.

Geographical and Historical Department.

Frank Alonzo Hildebrand, M. E.

In this department thoroughness is secured by careful drill and by presenting the subjects concretely.

In addition to the aids and apparatus commonly employed in the teaching of History and Geography, a powerful oxyhydrogen stereopticon is in almost daily use. The illustrations thus projected cover the most interesting features of both subjects and are fine specimens of photography.

In Physical Geography, taking for granted a knowledge of general, political and descriptive geography, our great aim is to impart broad ideas of the structure of the globe, and the relation of each part to the whole, and after working down to the details, to return again and end with the whole globe.

In addition to the general work the thorough "intensive" study of a single continent is pursued.

General History is studied in the Middle year. Ancient History in the Winter Term, Mediæval and Modern History in the Spring Term. The school has a good library of History which is freely used by the students during the entire course of study.

An especially helpful feature in the teaching of Commercial Geography is a large collection of products which has been secured recently from the Commercial Museum of Philadelphia. It embraces samples of the leading natural and manufactured imports and exports of the world, and is supplemented by a series of photographs showing the processes through which each product is passed in becoming an article of commerce.

Science Department.

Jos. N. K. Hickman, A. M. Faith Browning, B. S.
Katharine H. Meigs, A. M.

It is the object of this department to secure to the pupil the distinctive advantages which result from correct science study. These we believe to be the power to observe quickly, clearly and comprehensively, and the ability to deduce legitimate conclusions from the observations thus made. With these ends in view, it is the aim never to tell the pupil what he can find out for himself by observation or experiment.

The laboratories are open to students at all times and much new apparatus has been added, greatly increasing the value of the work done in this department. Beginning with

PHYSIOLOGY

the student is taught the principal facts of his own anatomy, together with the function of its organs and the circumstances most favorable to their proper action. The teaching is enforced here by means of skeletons, both human and lower mammalian, by microscopic slides, by lantern projections and by the actual dissection of portions of some lower mammal. The student is now ready to begin

ELEMENTARY SCIENCE.

The work in this branch is intended to teach the pupil how to study nature under natural conditions and what parts are best adapted to be used in *Nature Study* in the various grades of our public schools with the best methods of presenting them. No attempt at classified Botany, Zoology or Mineralogy is made or desired, but the pupils, under the direction of the instructor, make frequent excursions to study environment and habits of the life forms under investigation. They are taught to collect their own material for study and each pupil must complete the study of a *Life History*.

Elementary chemistry may be substituted for this subject.

BOTANY.

Here an amount of text-book work sufficient to acquire the necessary technical terms is demanded. But the greater part of the work consists in a close study of the types of the most important orders. Special attention is paid to structure and function as effected by environment, and to the inter-relations of the animal and the plant worlds.

Large tables have been placed in the lecture room where the pupils may perform their dissection and analysis under the guidance of the instructor. In the Senior year the study of

PHYSICS

is taken up. By this time considerable observational power and fair maturity of mind may be presupposed. Accordingly the aim is not so restricted as before. The endeavor is made to have each deduction founded on a larger number and broader range of experiments, and to determine in many cases, not only the general law, but to decide quantitatively the exact result, and the extent of the limitations by surrounding circumstances.

This year a full course in laboratory physics has been established. The equipment has been greatly increased.

Each pupil is required to perform at least twenty-five (25) experiments arranged so as to touch the most important laws and principles of physics in a quantitative way.

ZOOLOGY.

The work is largely of a laboratory nature. Each pupil makes his own dissections, prepares and mounts his own specimens. He is taught to infer habit from structure and *see* life relationships and values. In

ADVANCED CHEMISTRY

each pupil has his own stall; with its equipment of apparatus and reagents, he conducts each experiment for himself. The work here is chiefly analytical, and such attention is paid to blow-piping as prepares the pupil for determinative Mineralogy as a part of the study of

GEOLOGY

which is carried out on the same lines as have been already indicated—much field work being required.

The Science Department is provided with an outfit of excellent apparatus. Our equipment now includes many pieces of great value, and is continually being increased. The Laboratory has been completely refurnished. Work tables with room for each pupil have been introduced, and lecture chairs with tablet arms have replaced the benches.

Elocutionary Department.

HARRIET RUMBALL, A. B.

The natural mediums God has given us for the expression of thought are speech and gesture. It is right and proper, therefore, that these mediums should be thoroughly cultivated and developed, so that we may be able to express our thoughts, or those of the author, in a clear, forcible and intelligent manner. Along with the acquisition of thought, or knowledge should be cultivated the power to express it.

The object of this department is to enable students to comprehend, to appreciate and to communicate thought in the most natural and effective manner.

Drawing.

ALBERT L. GRAFFAM.

We recognize that drawing is an invaluable element in general education, and are prepared to give it the attention its importance deserves.

The value of drawing cannot be overestimated, on account of its numberless applications in every art and trade, and because it is an important factor in the training of the perceptive faculties.

The course comprises two terms in the following branches:

Pencil sketching from natural and familiar objects; Blackboard sketching; Study of the appearance of form; Water color work; Free hand and Instrumental Perspective; Mechanical Drawing and Lettering.

Special apparatus has been provided enabling each student to quickly determine the exact perspective of any object for comparison with the drawing, and similar provision has been made to aid in the study of projection. Experience has proved that these devices are invaluable aids to the students in these branches.

Manual Training.

ALBERT L. GRAFFAM.

During the first term a practical training in the construction of articles associated with nature study instruction, is used as the principal means of teaching the intelligent care and use of tools, materials and processes, the educational value of the subject being constantly kept in mind as the chief end and aim of Manual Training. For the benefit of students who desire to make a specialty of Manual Training, a course in sloyd planned for the Seventh Grade, may be substituted for the regular work of the first term.

Beginning with the second term the student may take up the study of courses in chip carving, whittling, wood carving, sloyd, joinery, basketry, or hammock making, and continue along these lines until he is competent to teach them, or he may turn his attention to the making of some project. Particular attention is given to the matter of original design, and each student presents a number of designs, which, when they are approved, he proceeds to execute.

Classical Department.

R. Elliott Owens, A. B. Rosina B. Weaver, M. S.

The number of students preparing for college has steadily increased during the last few years. Vassar, Wellesley, Mount Holyoke, Lafayette, Washington and Jefferson, Westminster, State and some other colleges, receive students upon our certificate.

LATIN.

The "Roman" pronunciation is used.

In the Junior year three terms are spent on Smiley and Storke's Beginner's Latin Book.

It is here the aim thoroughly to ground the student in the Latin forms and inflections, and in the general principles of Latin syntax. It is desired that the student have a good knowledge of English before taking up this branch, since the idioms of the two languages are constantly compared.

In the Middle year three terms are devoted to Books I, II and III of Cæsar. Here, in addition to the literal and free translation of the text, there is constant drill in the use and force of the cases, the modes and tenses, of the principles of indirect discourse, of the gerund and gerundive constructions, of the ablative absolute, in the derivation of words, and in the analysis of sentences.

The Senior year continues with one term on Cicero's orations (First three against Cataline), and two terms on Virgil's Aeneid (Books I–III). In connection Latin composition is studied.

In reading poetry, sufficient attention is paid to the laws of versification to enable the student to scan the poetry he reads.

There is opportunity also for reading Latin beyond the regular course.

GREEK.

It is the aim not only to implant a thorough knowledge of the forms and principles of syntax, but also, by means of reading at sight and other exercises, to enable the student to use the language in a practical way. In this way the student comes to look upon Greek not as a "dead" language, made up of a mass of forms and rules, but as a legacy of a cultured people.

The reading of the Greek authors includes Xenophon's Anabasis and Homer's Iliad. If desired, other authors may be studied. In connection with these, the history and customs of the Greek people are taken up. Exercises in writing Greek are kept up by the use of Pearson's Greek Prose Composition.

LEONARD HALL—SECOND FLOOR

HOCKEY

College Preparatory Course.

FIRST YEAR.

FALL TERM.	WINTER TERM.	SPRING TERM.
E Arithmetic.	D Arithmetic.	U. S. History.
F Language.	E Language.	D Composition.
) Reading.	Geography.	D Grammar.
(Spelling and Writing.	A Latin.	Cæsar (Bk. I.)
B Latin.	Physiology.	Elocution.

SECOND YEAR.

THIRD YEAR.

FALL TERM.	WINTER TERM.	SPRING TERM.
Rhetoric.	Rhetoric.	Literature.
Geometry, Plane.	Geometry, Plane.	Trigonometry and Surveying.
Anabasis or German.	Anabasis and Greek, Prose or German.	Iliad (Bks. I, II, III,) or German.
Cicero (4 Orat.)	Cicero and Prose (2 Orat.)	Sallust and Nepos. General History.
Government.	General History.	

Modern Languages.

VILDA SAUVAGE, A. B.

The object of this department is to fit students for college entrance; to enable them to make practical use of the spoken and written language, and to open to them the richness of the German Literature and the grace and polish of the French.

GERMAN—FIRST YEAR.

First Term.

Essentials of Grammar. Drill in pronunciation. Dictation: Easy prose composition and conversation. Texts: Worman's "First German Book;" Guerber's "Märchen und Erzählungen."

Second Term.

Grammar and Composition. Joynes-Meissner. Critical Study of Sturm's "Immensee." Poetry; conversation.

Third Term.

Grammar and Prose continued. Von Hillern's "Höher als die Kirche;" Heyse's "L'Arrabbiata.

SECOND YEAR.

First Term

Advanced Grammar and Syntax, Joynes-Meissner. Prose Study. Boisen's German Prose. Short poems.

Second Term.

Continuation of Grammar. Critical Study of Lessing's "Minna von Barnhelm," and other works.

Third Term.

Gœthe's "Herman and Dorothea." Schiller's "Wilhelm Tell."

Composition; short themes; selected poems.

FRENCH—ONE YEAR.

First Term.

Rudiments of Grammar. Drill in pronunciation. Easy dictation. Text: Fontaine's "Livre de Lecture at de Conversation."

Second Term.

Grammar and Composition. Edgren. Easy reading; poetry. Super's French Reader.

Third Term.

Grammar and Prose continued. Halevy's "L'Abbè Constantin."

Commercial Department.

SHERMAN L. LOWREY, M. A. L. M. EKIN, B. S.

Successful men and women of every calling in life recognize the advantages of a thorough business education. To those who intend pursuing an active business career, this is absolutely necessary; and to any one it is a valuable aid. For this reason several years ago the commercial department was added to our school. Its object is to instruct young men and women in the laws, customs, and forms of business; to cultivate in them habits of neatness, accuracy and thoroughness of work; to familiarize them with practical business problems, and in every way possible to prepare them for successful business lives. The teachers are of the regular school faculty, and are specialists in their several lines.

Business Practice.

Part of each term is spent in "Business Practice." The business of a city, on a small scale, is here carried on, with its stores, offices and banks. Each student enters business with a certain capital; buys and sells; draws drafts and checks; writes receipts, notes and other business papers, and at last retires from business with a handsome profit or perhaps insolvent, as the case may be. The benefit of this work is great, in that it combines theory with practice, and thus fixes the principles of bookkeeping.

In addition to the advantages of the department, Commercial students have all the privileges of the large library and reading-room, literary societies and debating clubs, athletic association,

Christian association, socials, lectures and other entertainments of the school.

The time required to complete the Commercial Course varies with the ability, previous training and application of the student. As the instruction is largely individual, each student may progress as fast as he is able, and finish the work as soon as possible.

Many students on entering the school, pass a special examination in Spelling, Grammar, Reading, Geography, History, D Composition and D Arithmetic, and if their examination is satisfactory, are not required to take these studies in class. High school graduates are given credit in this department, for the above named studies without examination.

Having finished the prescribed course and passed the examination satisfactorily, the student is granted a diploma. The charge for the diploma is one dollar.

Commercial Course of Study.

FIRST TERM.

Writing—position, movement, exercises, practice.
E Arithmetic.
Spelling—orthography, orthœpy, diacritical marking.
Reading—articulation, voice culture, reading.
Geography.
Bookkeeping—theory, single entry, actual business.
F Grammar.

SECOND TERM.

D Arithmetic.
E Grammar—language lessons, practical applications.
D Composition—sentences, paragraphing, punctuation, letter writing.
History.
Bookkeeping—retail, wholesale, lumbering, actual business.

THIRD TERM.

B Arithmetic.
Commercial Law and Political Economy.
Letter Writing—Business letters, correspondence.
Bookkeeping—insurance, commission, banking, actual business.
C Composition.
D Grammar.
Civil Government.

Shorthand Course of Study.

Students must enter shorthand classes the first day of each term.

FIRST TERM.

Shorthand—beginning. (Ben Pitman System.)

Typewriting—beginning. "Touch Method."
Writing—position, movement, exercises, practice.
Spelling—orthography, orthœpy, diacritical marking.
F Grammar.

SECOND TERM.

Shorthand—dictation.
Typewriting—Van Sant "Touch Method."
E Grammar—language lessons, practical applications.
D Composition—sentences, paragraphing, punctuation.
E Arithmetic.
Letter Writing—business letters, correspondence.
Bookkeeping—Optional.

THIRD TERM.

Shorthand—advanced.
Typewriting—advanced.

Athletic Department.

HARRIET RUMBALL, A. B.

1. A Gymnasium, thoroughly equipped with all the modern appliances, is in charge of a competent instructor in Physical Culture, and will be open at different parts of the day to each of the sexes.

2. Parts of our large campus are given up to field sports. A bicycle track, croquet grounds, six excellent tennis courts, a foot-ball field, and a base-ball diamond afford excellent inducements to exercise out of doors.

Lectures.

It has become a part of the settled policy of the institution to give to its pupils the opportunity to hear in their own halls, lecturers of eminent ability on subjects supplementary to the regular work, or of universal interest.

Government.

Self-government is the true type of government. It is the only kind capable of developing that high character which the teacher should possess. Hence the constant aim of this school is to develop self-control, and to cultivate such a sentiment as will render school discipline unnecessary.

There are but few regulations, but that all may live happily in so large a community, it is necessary that there be some.

COMMERCIAL ROOM

Buildings, Location, Grounds, Etc.

Buildings.

John Sutton Hall, the main building occupied by the Indiana Normal School, is one of the best arranged buildings for school purposes in this or any other State.

Situated on a gentle eminence, with a beautiful outlook and in the midst of delightful grounds, it includes a liberal share of those arrangements which go to render student life pleasant and attractive. The entire building is heated by steam and lighted by electricity.

Every floor is supplied with an abundance of hot and cold water, bath rooms, lavatories and water closets of the most approved patterns.

Danger in case of fire is reduced to a minimum by our method of heating and lighting, as well as by the ample arrangements for extinguishing a fire should one occur; also by fire escapes abundantly provided for each floor.

In brief, this immense building is planned and furnished throughout, for the convenience, safety and success of its occupants.

Each room has a suit of oak furniture. It comprises a bedstead, a bureau, a washstand, two chairs, a study table and a neat case of book shelves. The rooms are all carpeted. The steam laundry does very fine work. All cooking is done by steam. The building is fitted up with the most modern machinery and appliances.

A fine passenger elevator takes away all objections to the fourth floor rooms, and really makes them the most desirable.

Silas M. Clark Hall, a brick dormitory for young men, occupies a beautiful situation upon the southern edge of the athletic field. It is one hundred and fifty feet by forty, three stories high, and has large porches on both fronts. The rooms are commodious. Each is furnished with two single beds. No expense has been spared in the arrangements for heating and ventilation. Every room is thoroughly ventilated without the opening of window or door, thus securing to the occupants an abundance of pure air without exposure to cold drafts.

A. W. Wilson Hall, a beautiful model school of eight rooms, with play rooms in the basement for stormy weather, adorns the campus near the northern entrance. This building is lighted, heated, ventilated and furnished in the most approved manner.

Jane E. Leonard Hall, a recitation building one hundred-twenty-three by one hundred-thirty feet, of brick and brownstone, contains twenty-four rooms, abundantly lighted, comfortably

furnished, and ventilated wtth the double fan system. The commercial room and laboratories are well equipped with modern apparatus.

Thomas Sutton Hall, a brick building one hundred-twenty-three by ninety-two feet, contains a cheerful, spacious, and beautifully proportioned dining room ; a kitchen, bake rooms and laundry fully fitted with latest appliances, and rooms for vocal and instrumental music as well as provision for the domestic department.

Location.

The character and location of Indiana are such as to render it especially desirable as a site for a Normal School.

Near the mountains, having an elevation of thirteen hundred and fifty feet above the sea, it is entirely removed from all malaria, and has an atmosphere of great purity and healthfulness. The health record of the school, as a consequence, has always been remarkably good.

The moral and intellectual character of the citizens, an item of no small importance to students away from home and among strangers, is of a high order, as has been shown in an unmistakable manner by the creation and liberal support of a State Normal School.

Indiana is almost entirely free from tramps and other rough characters, so abundant in railroad towns.

But Indiana with its high moral tone, its sobriety, its beautiful scenery and its salubrious climate, is far from being isolated or inconvenient of access.

Railroad Accommodations.

The Indiana Branch Railroad connects at Blairsville with the West Penn, and at Blairsville Intersection with the Pennsylvania Central, and the Buffalo, Rochester and Pittsburg gives direct access from the North. Indiana is easily reached from any portion of the State. The school is within ten minutes' walk of the stations.

There are three mails each way every day, and telegraphic and telephonic communications with all the leading cities and towns.

Taken all in all, it would be hard to find a town safer, or more convenient for the citizens of Western Pennsylvania.

Grounds.

The grounds contain about twenty-three acres, including a beautiful grove. A competent gardner is employed to keep the grounds about the buildings in order. The buildings are surrounded by beautiful beds of foliage plants and blooming flowers.

Expenses at Indiana.

There is an impression in the minds of some that Indiana is an expensive school. Those who are preparing for attendance at some school, but who have not fully made up their minds as to the school of their choice, sometimes say:

"We would prefer to go to Indiana, but it costs so much that we cannot afford it."

A comparison of our rates with those of rival schools will show very little difference.

Under the impression that it would be the fairest course to pursue, and the one that would give the greatest degree of satisfaction to our patrons, we have been accustomed to aggregate all expenses, except those for books and stationery, thus leaving no extra bills for room rent, washing, light, fuel, etc., to be sent when unexpected.

Those who desire to practice still further economy will find opportunity for self-boarding or club-boarding at as low rates as can be obtained anywhere.

Statement of Expenses.

	Full Year.	Fall Term, 15 Weeks.	Winter Term 12 Weeks.	Spring Term, 13 Weeks.	Less than a Term, per Week.
Incidental fee for all students	$5.00	$2.00	$2.00	$2.00	.....
BOARDING STUDENTS.					
For tuition, board, furnished room, light, heat and washing	200.00	75.00	60.00	65 00	$5.25
DAY STUDENTS.					
For tuition	60.00	22.50	18.00	19.50	1.50
EXTRAS.					
For Piano, Organ, Voice Culture or Private lessons in Harmony, or in Elocution for two lessons per week	.....	15.00	12.00	13.00	1.20
For one lesson per week	.....	9.00	7.20	7.80	.60
For use of instruments for two practice periods per day	.....	2.00	2.00	2.00	.....
Typwriting	.....	5.00	4.00	4.50	.....
Shorthand	.....	10.00	8.00	9.00	.....

Vacation board, 75 cents per day, or $4.00 per week; transient board, 75 cents per day, or 4.00 per week; board for Music students, $3.75 per week; lunch only, $1.00 per week.
A few rooms have recently been fitted up on second floor for which a special price is charged.

Deductions.

For absence two consecutive weeks or more, on account of personal sickness, one-half the usual charge for board and tuition.

No deduction is made for absence the first two or the last two weeks of the term, except by previous arrangement with the Principal.

An "incidental fee" of two dollars for each term or five dollars a year is charged to all students and must be paid at the time of enrollment. This entitles the student to a ticket of admission

for all athletic events, the course of university extension lectures and all other lectures under the auspices of the school.

State appropriations are made to Normal students in accordance with the following statute:

1. "For each student over seventeen years of age who shall sign a written declaration, in the form prescribed by the Superintendent of Public Instruction, that said student intends to teach in the common schools of the State, there shall be paid the sum of one dollar and fifty cents per week towards the expense of said students:

"*Provided*, That each student in a Normal School, drawing an allowance from the state, must receive regular instruction in the science and art of teaching in a special class devoted to that object, for the whole time such allowance is drawn.

Payment of Bills.

Bills for board and tuition are payable, one-half at the opening and the remainder at the middle of the term. State aid is not credited before the end of the term.

Payments must be made, or satisfactorily provided for, before students are assigned to classes.

Students desiring to leave school before the close of the term must report to the Principal and settle any unpaid accounts; and in all cases bills for board and tuition will be made out for the entire term unless notice of leaving is given at the time of leaving, or, (in case this is impossible,) immediately thereafter.

Visitors expecting to remain more than three days are expected to make arrangements in advance with the Principal.

All bills are payable to the Principal.

Outfit, Rooms, Washing.

Students are expected to provide themselves with towels, table napkins, soap and other needful toilet articles.

Since in case of sickness meals are sent to rooms, each student should provide himself with knife, fork and spoon, as silver will not be sent out of the dining-room.

Rooms.—Students in actual attendance at the close of one term, are entitled to preference in the choice of rooms for the next term. All other students are entitled to choice of rooms in the order of the reception of their application.

No rooms, selected by or for the students, will be held for them beyond the first Thursday of the term, except upon special agreement to that effect, and charge will in all cases be made for rooms thus held.

Each room is intended to accommodate two boarders, and the scale of prices given above is arranged accordingly. Where the student occupies a room alone, an extra charge will be made, and must be prepaid before taking the room.

A CORNER IN ROOM FOR RECITATION IN GEOGRAPHY

A CORNER IN ROOM FOR RECITATION IN GEOGRAPHY

Washing.—Each student is entitled to the washing of ten plain pieces in addition to the towels and napkins.

All articles sent to the laundry must be plainly marked with the name of the owner in some indelible form, and should be in a laundry bag.

Text Books.

Stationery and text-books used in the Institution can be purchased at the book room in the building at regular prices; or the text-books can be rented at reasonable rates by those who do not wish to purchase. The following is the list in use:

The Bible.
Geography—Dodge.
Physical Geography—Dryer.
History of the United States—Montgomery.
English History—Montgomery.
General History—Myers.
Civil Government—Andrews.
Speller—Benedict.

School Management—White.
Method of the Recitation—McMurray.
Logic—Jevons-Hill.
Moral Science—Robinson.
Bookkeeping—Goodyear.
Commercial Law—Powers & Lyons.

Books of Reference.

While the student will find many books of reference here, still it is advisable for him to bring such as he may have, that he may make personal and daily use of them. The habit of such use

is of incalculable importance, and school life should ever minister to the formation of such habits as will lead to a successful life. Bring your books with you; place them where you can conveniently use them, and by their use form a habit, the value of which you can never overestimate.

Library and Reading Room.

A good reference library is accessible every day to all students. In this are found the leading encyclopedias, dictionaries and other standard reference books, historical charts, maps and other conveniences so essential to successful student life.

There is also a large library of choice works of history, biography and literature free to all students.

It is not the aim to mass books merely for the sake of making a large library; but we do aim to have every usable book and periodical.

The addition to the library during the year will aggregate eight hundred volumes.

In connection with the library is a reading room, supplied with newspapers and periodicals as follows:

Saturday Evening Post,
Forum,
Public Opinion,
Public Libraries,
Scientific American,
Popular Science,
Harper's Monthly,
Harper's Bazar,

Societies.

Two literary societies, the "Erodelphian" and "Huyghenian" are well sustained, each having a private room.

These societies, which are in excellent working condition, have become marked features of school life at Indiana.

Religious Influence.

Family worship is held daily. All students are required to attend church on Sabbath morning. The Y. M. C. A. and the Y. W. C. A. aid in the religious culture of all whose homes are in the Institution. They include a large proportion of the students. These associations have charge of the Thursday evening prayer-meetings, and hold a joint meeting Sabbath evening and an endeavor is made to promote Sabbath observance.

Students are thus encouraged to become Christian workers, and school life is made to minister to the elevation of Christian life.

Besides these associations, there are various others of a practical type and in a highly prosperous condition.

The Churches represented by congregations at Indiana are Methodist Episcopal, Presbyterian, United Presbyterian, Catholic, Lutheran, Baptist, Episcopal, German Lutheran and Christian.

Advice to Prospective Students.

Come Early.

Success demands that you shall be here early. Tardiness in the commencement of a term, or irregularity of attendance after the commencement has been made, are very serious hindrances to

success. Be here and ready for work on the very first day and the very first hour of the term.

Give Yourself Time For Thorough Work.

It often happens that an ambitious young man or woman, limited in means, and desirous of commencing life's active labors as soon as possible, determines to try to do two years' work in one, or that of three in two.

Such a course is scarcely ever advisable. One essential element in the teacher's preparation is time. Solid attainment is never a mushroom growth. Two years' work demands two years in which to do it well; and unless work is well done, the result will prove a source of regret through many years of mistakes, which might have been avoided had more thorough preparation been made. If you need more than a year for your work, and have only the means at command for one year's expenses at school, come for the year, and then by remaining out of school for a time, make it possible to return and complete your course. It is not an absolute necessity that you graduate at a certain time; it is absolutely essential to your true success that you make thorough preparation.

Make Few, if Any, Visits Away from the School.

Success demands concentration of thought. This is prevented by frequent visits at home or elsewhere, and usually time thus spent subtracts materially from the progress of the student. Boxes of eatables sent to students are frequently causes of illness.

A High Standard.

The Indiana Normal school proposes to maintain a high standard of excellence, both as to scholarship and as to attainment in Model School work.

Our inquiry is, and will remain, not how many can we graduate, but how many, and who, are thoroughly prepared for graduation.

For the sake of those who shall employ our teachers, and for the sake of the teachers themselves, we desire to make our diplomas valuable and preserve to them their value; and we trust that students will appreciate the fact that they must themselves contribute to so desirable an end.
